### **OnDemand Energy at Chamber Happy Hour**

The Hofbrauhaus at South Side Works open air Biergarten proved to be the perfect setting for the South Side Chamber of Commerce's **July 20** happy hour. It was a balmy evening that was treated with occasional cool breezes along the Monongahela riverfront. About 50 Chamber members and guests, business owners and residents attended. The Hofbrauhaus and Green Roads Energy, LLC, both Chamber business members, donated delicious hors d'oeuvres for the gathering.

Kelly Cerbus, Senior Energy Advisor for OnDemand Energy, spoke about the energy cost savings benefits of OnDemand Energy. She is from Beaver County and has worked for OnDemand Energy for six years as an advisor for electricity and natural gas analysis and procurement. Kelly is currently working with the Pennsylvania Restaurant and Lodge Association to develop cost savings for their business members. Phil Orend, Director of Marketing and Sales Coordinator for OnDemand, also was available to speak to guests individually about their energy supply needs.

Founded in 1995 in Pittsburgh, OnDemand Energy helps businesses manage their energy needs on both the supply and demand sides of the meter. Today, their combined staff of over 40 energy experts offers 250 years of combined experience to manage the complexities of energy supply, delivery, consumption and cost control.

OnDemand works with chambers of commerce to create purchasing groups, including both business and residential consumers, to collectively purchase energy at the best possible rates and also create a revenue stream for local chambers of commerce to raise funds for community initiatives.

The South Side Chamber of Commerce is committed to helping its members, other local businesses and residents save money and mitigate energy increases due to rising costs. OnDemand manages cost savings energy programs with one-on-one consultations their professional staff.

OnDemand Energy is the largest consultant/broker in the Commonwealth with an annual load of approximately 5.0 billion energy kilowatts. They serve over 35,000 commercial and industrial meters, 6,500 active business clients and over 25,000 residential clients. OnDemand reported that it offers the widest array of supply products available through 27 energy supply partners, and that it has saved their clients over \$400 Million since deregulation began.
